

Good Morning Sunshine

*Good Bye Ohio I'm leaving
Did my job well now it's southbound from Cleveland
Seen all the the people, heard all the cheers
Home just seeps from my tears*

*So good morning honey, good morning baby
I know you work early, and you've got to go
But I've just gotten home from a month on the road
And I sure hate seeing you go*

*Been to the plains and the oceans
Slept in skyscrapers, and awoke in the canyons
Seen all the weather, the sun and the storms
And home it just bleeds from my pores*

*So good morning honey, good morning angel
I know it's 6:30 and you've got to go
But I've just gotten home from a month on the road
And I sure hate seeing you go*

*So good morning honey, good morning baby
I know you work early and you've got to go
Good morning sunshine, so glad when you're near me
The last time I saw you, we were waving goodbye
So come back to bed and turn off your phone*

I've been waiting too long for your love
