

# *Meet My Angel*

*So many people tell me that left alone  
I'd be my own demise  
I often get tangled in my own web  
I get caught in my own lies  
But there was something that happened to me  
So many years ago, you may never believe  
I was tricked by the devil  
But as you may well know, the devil ain't no 'he'*

*Can't you see me fall  
Can't you hear me call  
You might think you know then it ain't that way at all  
You say you wanna meet my angel  
Meet my devil too  
Now you see I'm gone, can't you hear me call*

*Like a vipers twin fangs of lust and lies into  
The hope around my heart  
She held so softly and then when I slept  
She ripped that fucker out  
I looked around as I gasped for breath  
To see what I could see  
All I saw was my love in my lover's hand  
And blood upon the sheets/ (her cheek)*

*Whoa-whoa-whoa*

*So be careful of the woman you let hold your heart  
The one you think you need  
Because the smiles and whispers they aren't always love  
It may just be time for her to feed  
She stares at me with those soulless eyes  
And bares those pearly teeth  
I never had a clue what I was getting myself into  
Never knew she was a demon seed*
