

Time By You

*Headed downtown on a Saturday night
Got too much on my mind
Met a girl about three times back and now I'm thinking of her
Finally called her house, her mom picked up the phone
Said she went to the high school dance (Oh no!)
One more town, one more girl who had me fooled*

*And in the morning when you wake up I'll be gone
Out the door on the road again
I didn't wanna wake you, you looked so sweet
Oh darling, please don't be mad
Cuz I sure, enjoyed my time by you*

*Some ladies say it's the life I need
Some girls tell me it's just my personality
Some just say so long when they get up and leave
Bitter letter mail sometimes I receive
But there's not much inside when my heart's on my sleeve
So the way things are is just the way they're gonna be*

*And in the morning when you wake up I'll be gone
Out the door on the road again
I didn't wanna wake you, you looked so sweet
Oh darling, please don't be mad
Cuz I sure, enjoyed my time by you*
